

New ID Mouv leisure chair

- **Ultra-light folding chair: weighs only 20 kg (without battery)**
- **Equipped with a practical controller for the caregiver.**

The New ID Mouv chair makes it easy to travel in town or on rough terrain. It can be operated by the user using the joystick (which can be positioned on the right or left), or by a carer using a control that can be positioned on the backrest.

Equipped with a safety belt, soft foam handles and anti-tilt wheels. The electromagnetic brake allows the wheelchair to brake on its own and come to a stop for added safety. Easy to fold flat.

Aluminium frame.

2 x 180W motors.

25,9V 10 aH lithium battery.

Maximum speed : 6 km/h

Range : 10 to 15 kms

Dimensions : Length 112 x width 60 x height 98 cm.

Seat height : 54 cm.

Weight : 22 kg (20 kg without battery).

Folded dimensions: 85 x 45 x 60 cm.

Maximum user weight: 100 kg
