

Microbead maternity wedge cushion

- Relaxing positioning cushion with microbead filling
- Can be used in a lying or sitting position

Special microbead cushion for maternity use, for a relaxing sitting or lying position. Filled with microbeads of uniform density, it allows for the correct positioning of patients, children or adults, in a pushchair or in bed. The cushion moulds to the shape of the patient's body. Supplied with a lavender blue cover, washable at 40°C.

100% made in France.

Length when unfolded : 130 cm.

Length when in position : 80 x width 50 cm.
