

Gelpro Headband

- **Perfect for migraines or toothaches**
- **Revolutionary stretch material !**
- **Enables efficient cold or hot treatment**

The new GelPro range offers complete thermotherapy treatment. Place the compress in the freezer to relieve minor injuries and swelling. Place the compress in the microwave to soften and relieve muscle or organ pain. The compresses slip onto the area to be treated and fit snugly because the material used is elastic, allowing it to adapt to most body types.

Colour : blue.

Ideal for relieving headaches and toothaches when placed in the freezer beforehand. Stretchable headband for easy wearing.

Dimensions: width 23.5 x height 15.5 cm.

Weight 468 g.

Compresses available in 5 other models.
