

Ergo Reacher clamp

- 67 cm - 817067

- 76 cm - 817068

- Catch objects that are too high or fall to the ground
- Non-slip, wide opening jaw with magnetic end

Our Ergo Reacher is a lightweight, indispensable tool for grabbing books and magazines, boxes that are stored too high or small metal objects that have fallen to the floor. The pliers are equipped with a non-slip jaw with a wide opening and a magnet at the end. It is easy and painless to use as the handle is operated with the whole hand. The jaw can be positioned horizontally or vertically, depending on the objects to be picked up.
