Eco lift seat for getting up smoothly

- Eco - 821001

- **This seat assists individuals in standing up and sitting down smoothly.**
- **Four models available depending on comfort requirements**
- **Electric model provides 100% assistance**

This seat, as comfortable as a cushion, is equipped with a hydraulic mechanism that allows it to unfold smoothly and automatically when the user begins to stand up. It assists approximately 50 to 60% of the effort required.
When individuals sit down, the seat lowers smoothly. To ensure correct operation, the user must simply adjust the actuator to their use. Lightweight (4 kg) and transportable when flat. The electric model provides 100% assistance.
