

Eco reclining seat

- **This seat assists you in getting up and sitting down smoothly!**
- **3 models according to comfort**
- **Electric model to assist you 100%**

The seat, which is comfortable like a cushion, has a hydro-pneumatic mechanism that allows it to deploy smoothly and automatically when the user starts to stand up. It assists approximately 50-60% of the effort required. When you sit down, the seat lowers gently. All you need to do is adjust the actuator to your weight beforehand. Lightweight (4 kg) and can be carried flat.

Dimensions: width 43 x depth 48 x thickness 5 cm.
Removable and machine washable cover.
The electric model assists you 100%.

3 finishes available:

- Eco model: Standard foam
- Up Easy Standard : High density polyurethane foam.
- Up Easy Med model: Viscoelastic memory foam.

Waterproof cover.

Maximum recommended weight: 135kg
