

Better Back corrective seating

- Standard - 855017
- Lumbar - 855053

- **Efficient positioning against back pain**

The Better Back, ideally placed on a car seat, allows the user to sit correctly and upright, preventing back pain. It consists of a multi-layered wooden insert moulded to the lumbar region and between the legs, and a comfortable padded cover. It folds in half and has a carrying handle.

The adjustable lumbar model is equipped with a mechanical control that varies the depth of the lumbar area.

Dimensions : width 46 x height 48 x depth 39 x thickness 5 cm.

Colour : black.

2-year warranty.

Variantes :

- Standard
